

Reina Roa, MD, COP Bureau Representative, AMRO and National Director of Planning and Focal Point for Tobacco Control, Ministry of Health:

In normal times we would all be participating in COP9, unfortunately, due to current circumstances situation this is not possible.

In my video I have shared some important COP9 priorities:

- FCTC Parties use this time to consolidate positions to reach funding sustainability for the COP, for Secretariat activities and for COP development plans;
- Increased funding to strongly face challenges of WHO FCTC implementation in a sustained manner despite tobacco industry interference
